Diversity, Equity, and Inclusion
STRATEGIC FRAMEWORK
JANUARY 2022
Our Goal is Inclusive Excellence

As a black man who has lived experience with multiple dimensions of diversity throughout my lifetime, including not learning about my dyslexia diagnosis until college, I am absolutely committed to our work at Fresno Housing to strengthen diversity, equity, and inclusion (DEI). I have turned numerous stumbling blocks into stepping stones. I have been, and always will be, committed to opening doors of opportunity for others, because others have opened doors of opportunity for me. As a proud graduate of Prairie View A&M University and MIT, I am proof that with the right support and resources, we all can rise to higher heights and maximize our full potential.

Belonging and inclusivity have a strong impact on those we serve, but also on employee retention, satisfaction, and engagement. This is why the first two goals in our DEI Strategic Framework focus on our colleagues and culture. By prioritizing the initial focus on the climate in our workplace, Fresno Housing recognizes that change will begin at home, and radiate out through the actions of our employees to positively impact our customers and partners.

With a goal of inclusive excellence, Fresno Housing strives to be an Agency where all employees, residents, and stakeholders recognize our organization as a great place to work, live, and thrive. We aim to be an Agency where a sense of inclusion and belonging has been realized for those who have historically been marginalized or underrepresented. We will continue being intentional and ensuring that efforts to be inclusive and develop a sense of belonging are embedded in all aspects of our work, and should sustain all elements of diversity that make each of us unique. While we are each informed by our own lived experiences through differences in ethnicity, political philosophy, spiritual beliefs and relation, socio-economic status, gender, culture, veteran status, sexual orientation, ethnicity and so many other dimensions, we are aligned in our appreciation for what makes us unique and our dedication to empowering the residents we serve.

Fresno Housing remains committed to prioritizing our DEI work, and will continue to uphold the belief that our differences, backgrounds, and talents enrich Fresno Housing and the larger city and county community.

Sincerely,

Tyrone Roderick Williams
Chief Executive Officer, Fresno Housing
Fresno Housing staff have spent significant time reflecting on the role that housing and land use decisions have played in creating inequities and how we, as a housing agency, are obligated to address injustices, housing insecurity, and racial inequity.

We acknowledge our past, understand how our decisions impact the present, and are committed to building a better future. Fresno Housing continues taking the steps necessary to create a Fresno County full of opportunity and prosperity for all.

While there is still much work to be done, through multiple efforts, we are collectively rising to the challenge of creating a diverse and inclusive Agency and overcoming the legacy racism has in Fresno County.

We remain committed to recognizing the importance of diversity, equity, and inclusion in creating and sustaining vibrant communities throughout Fresno County.
Why Diversity, Equity, and Inclusion?

Housing Insecurity
Tens of thousands of families across Fresno County continue to face a daily struggle to afford a safe and healthy home that provides access to needed resources — including quality schools, good-paying jobs with livable wages, and reliable transportation and healthcare.

Racial Inequity
Housing insecurity in Fresno County does not affect all populations equally; it impacts people of color, the elderly, and those living on low incomes at a higher rate than other communities.

What is happening in our country at the national level is also experienced here in Fresno County. People of color in general, and specifically Black Americans, have been and continue to be targeted unfairly or disenfranchised intentionally.
Strategic Imperative

Identification

Fresno Housing Strategic Plan outlined the need for the creation of supplemental policies, programs, and initiatives to strengthen the strategic array of partnerships and alliances.

Recognizing the importance of diversity in business innovation and employee satisfaction, Fresno Housing focused on diversity, equity, and inclusion (DEI) as guiding principles to accomplish the vision of creating and sustaining vibrant communities throughout Fresno County.

Action

In 2019, Fresno Housing embarked on a purposeful journey to build consensus and foundational elements in an effort to conduct an environmental scan of the Agency’s practices:

• Fully immersed itself as an Agency undoing past harm and understanding the importance of diversity, equity, and inclusion.

• Challenging itself to be clear about values to ensure diversity, equity, and inclusion are entrenched in the Agency’s culture and reflected in their work done throughout Fresno County.

• Robust, two year process with in-depth environmental scan of all Agency practices to assess and understand the footprint of the organization’s history, accomplishments, challenges, and opportunities.
